

Research Assistant Position in Global HIV Epidemiology

Overview

The *Department of Epidemiology and Biostatistics* at *McGill University*, the largest academic group of its kind in Canada, is seeking to recruit a research assistant to work on using routine prevention of mother-to-child transmission (PMTCT) program data to monitor HIV trends in sub-Saharan Africa. This project aims to develop additional guidance on the use of such data and, when warranted, perform statistical adjustments for known biases.

Description

The successful applicant, working under the supervision of Dr. Mathieu Maheu-Giroux, will develop a protocol to check validity of routinely collected PMTCT data, propose a statistical model for estimating spatial patterns and trends in HIV prevalence while accounting for variation in coverage and completeness, and write a simple R package for use by countries to analyze their routine PMTCT data. Additional responsibilities include preparations of abstracts, presentations, and technical documents. The post holder will work closely with a team of collaborators at *Imperial College London* and *UNAIDS*.

Qualifications and experience

Suitable applicants should have a master degree in epidemiology, biostatistics, or equivalent quantitative discipline. Previous research experience in a related area, demonstrated ability to publish in scientific journals, proficiency in R, and well-developed programming skills are required.

Applications

This exciting opportunity is available immediately on a full-time (35 hours per week) basis for a 8-month term with possibility of extension. Salary will be commensurate with qualifications and experience. Excellent benefits are provided.

To apply for this position, please send a cover letter and your CV to Dr. Maheu-Giroux (mathieu.maheu-giroux@mcgill.ca). The position will remain open until filled. We thank all applicants. Only shortlisted candidates will be contacted.

McGill University is committed to equity in employment and diversity. It welcomes applications from indigenous peoples, visible minorities, ethnic minorities, persons with disabilities, women, persons of minority sexual orientations and gender identities, and others who may contribute to further diversification.

In accordance with Canadian and Quebec law, the above is conditional upon obtaining the appropriate work authorization from any or all of the following as applicable: Citizenship & Immigration Canada, Immigration Quebec and Human Resources & Skills Development Canada (HRSDC).
